

Webtoon Reading Guide

웹툰 읽기 가이드

Webtoons pair pictures with short, natural dialogue — perfect reading practice for learners. Here is how to read your first one.

Why webtoons work

- Art gives you context, so you can guess unknown words.
- Dialogue is casual and realistic — how people actually text and talk.
- Short episodes = a satisfying, finishable chunk of reading.

How to read one

- Read a full episode once just for the story.
- Reread and underline 3–5 new words — no more.
- Notice sentence-enders like ~네, ~잖아, ~거든 — that's natural speech.

Tip: skip webtoons packed with slang or fantasy jargon at first. Slice-of-life and romance use the everyday Korean you're learning.
