

Song Lyric Study Sheet

노래 가사 공부

K-pop and Korean ballads are packed with useful, emotional language. Here is a simple method to learn from the songs you already love.

The 4-step method

- Find the lyrics (가사) with romanization and translation.
- Read one line at a time — Korean, then meaning.
- Circle repeated words; choruses repeat, so you learn fast.
- Sing along! Melody makes vocabulary incredibly sticky.

Words that appear in almost every song

Korean	Rom.	Meaning
사랑	sarang	love
마음	maeum	heart / mind
너	neo	you
눈물	nunmul	tears
